EDUCATION

University of Waterloo

Bachelor of Applied Science in Management Engineering

Sep 2022 – Apr 2027

Waterloo, ON

EXPERIENCE

Product Management Intern

American Express

Sep 2026 – Dec 2026

Toronto, ON

- Supporting product and relationship management across American Express card, lending, and insurance products

Project Management Intern

Dayforce

Jan 2026 – Apr 2026

Toronto, ON

- Designed and launched a fast-track architecture review process for platform migrations, enabling **42** migration initiatives to complete governance reviews within a **2-month** delivery timeline while maintaining compliance
- Led end-to-end governance execution for **18** platform initiatives, coordinating cross-functional stakeholders to drive technical reviews and align architecture, security, and operational standards prior to release
- Designed Jira workflow automations and reporting systems that improved intake completeness, reduced administrative overhead, and increased visibility into governance review progress

Project Management Intern

Suncor Energy Inc.

May 2025 – Aug 2025

Fort McMurray, AB

- Drove delivery of a **\$50M+** capital project by facilitating cross-functional planning meetings that informed the project execution plan, enabling the team to achieve a key milestone **3** weeks ahead of schedule
- Automated portfolio stewardship reporting workflows with Power Query, saving **10+** hours per month and improving leadership visibility across a **\$200M+** project portfolio
- Supported execution across **4+** concurrent projects by coordinating documentation, tracking deliverables, and resolving cross-functional issues between engineers, vendors, and stakeholders

Project Management Intern

BlackBerry QNX

Sep 2024 – Dec 2024

Ottawa, ON

- Identified **\$50K+** in workforce discrepancies by developing an Excel and SQL tool to analyze planned vs. actual labor hours across **6+** projects, enabling more accurate forecasting and leadership decision-making
- Built a document tracking system that enabled PMs to monitor approval and deliverable status across cross-functional teams, streamlining approval workflows and driving an **8%** increase in on-time milestone delivery
- Authored Confluence knowledge bases for the Workforce Analytics and Document Tracking systems, delivering user guides and enhancement roadmaps to support adoption, knowledge transfer, and continuous improvement

Project Management Intern

Tetra Tech

May 2023 – Aug 2023

Vancouver, BC

- Implemented a client-comment tracking system for **50+** engineering drawings, centralizing feedback and resolution history, improving comment resolution speed by **5%**
- Managed project material tracking across **1000+** components, supporting resource planning and execution accuracy for engineering deliverables

PROJECTS

ShiftSync

- Led the design and iteration of a mobile workforce scheduling platform, building horizontal and vertical Figma prototypes to validate shift swaps, emergency coverage, manager approvals, and rewards redemption

SKILLS

Tools: Confluence, Jira, Jama, Excel, Miro, Trello, Figma

Technical: Python, JavaScript, SQL, R, VBA, Node.js, React,

Product/PM: Agile, Stakeholder Management, Requirements Gathering, User Stories, User Research
